the patio

the interior is defined by stone walls that make stylistic references to the region, bringing the architecture together with the timeless footprints of history. upon entry, visitors are greeted by the patio that presents all of the materials and colors of the atmosphere. the spa and bath are adorned with white marble, wooden fittings, and an ambiance provided by natural sunlight. the kitchen and dining area are occupied by specially-designed fixtures and appliances. the adjacent lounge creates a spatial awareness that embraces views of the sea. this scenery is accentuated by the terrace, which is accessible through sliding glass doors, and features a swimming pool of natural rock surfacing.
