

## POLYREY

100% DESIGN

Polyrey, the boutique laminate brand, is making its debut at 100% Design this year at stand A116. Having already exhibited at Made in Milan, Interzum and Zow, and attending Interieur in Courtrai, Belgium in October, Polyrey is upping the ante with its display of innovative laminates and surface textures at 100% Design. Polyrey will exhibit a raft of on-trend laminates inspired by damask wallpaper, oxidised leather, metallics, pearlescent stone and exotic woodgrains.

## ILIO

100% DESIGN

Originating from Turkish design studio Demirden Design, Ilio will make its market debut at 100% Design by bringing its first collection of tableware and furniture to a British design audience. Cube is made from six dishes in two different depths placed one on top of the other, forming a distinct statue resembling a layered landscape of rock formations. Ilio's fine china, handmade crystalline tableware and innovative furniture are given a unique identity – decorative and functional, but also daring and playful.

## MONICA CORREIA

100% DESIGN

The Ventosa Collection consists of utilitarian and decorative pieces in organic shapes. The concave and convex shapes create the illusion of movement, attracting the viewer's eye and allowing for better handling by the user. The collection is made up of vases, bowls and pitchers. Each object has a unique shape that harmonises with the other pieces of the set. The collection can be manufactured in different-coloured plastic or in polished metal alloys.

## FORBO FLOORING

100% DESIGN

Touch, "the next generation of linoleum", is being launched at 100% Design. This sustainable floor covering is a careful blend of linoleum and cork, which delivers high comfort and outstanding acoustic properties combined with strength, durability and resilience. The collection consists of Touch Duet and Touch Solo, each providing a tactile and natural experience that intrigues the senses.

## ARMOURCOAT

100% DESIGN

Armourcoat's new Darwin Centre cocoon, designed by Danish architects CF Møller, will be on show at 100% Design. The stunning landmark development – a bold new £75m extension to London's Natural History Museum – is groundbreaking in scale and breathtaking in its originality. Armourcoat was specified to devise a unique creative solution combining both the insulation and the final decorative layers. The Cocoon is a stunning example of the type of commercial projects now undertaken by Armourcoat, celebrating 25 years of creative excellence in 2009.
